

## Join us at the 9<sup>th</sup> Annual 2003 ECOLOGICAL MONITORING AND ASSESSMENT NETWORK NATIONAL SCIENCE MEETING

November 24-30, Casino Nova Scotia, Halifax, Nova Scotia

### DELIVERING ECOLOGICAL SCIENCE TO SOCIETY: Influencing and Informing Governance, Policy, Adaptation and Decision-making

*Explore innovative approaches* and best practices used across Canada to enhance the relevance of science.

*Learn about current research* on pressing environmental issues and strategies to address these concerns at all scales, with a focus on the *Atlantic Region*.

*Network* and share ideas within and across disciplines, sectors, and jurisdictions.

#### Also plan to attend these exciting side events:

- Eco-Instruct: Become a technical instructor in the latest environmental information management standards and programming techniques
- Canadian Sustainability Indicators Network meeting – A mixture of strategic thinking and knowledge sharing
- Community-based monitoring workshop
- Hands-on training in the EMAN Ecological Monitoring Protocols
